

STROPINK®

APPELLATION CÔTES DE PROVENCE PROTÉGÉE (PDO) – 12,5% ALC./VOL. – 2016

Immerse yourself in the unique atmosphere of mythical places, lost in the delectable, light mineral notes of this wine. Drink in the Mediterranean sunshine and the relaxed Saint-Tropez lifestyle, and look at life through rosé-coloured glasses!

STROPINK® is a dry - fruity rosé blend of traditional grape varieties such as Grenache (50%), Cinsault (45%) and Shiraz (5%). The soil is mostly composed of schist, with occasional veins of quartz, which gives the blend a dash of minerality. The vines, trellised to better withstand the powerful Mistral Wind, are grown in the traditional manner.

This extremely graceful wine is the reflection of painstaking attention to vinification: maceration on the skins, in a state-of-the-art pneumatic press, at specific temperatures to prevent the wine from taking on too much colour yet preserve all its aromas. Fermentation is also temperature controlled in order to create a rich, complex aromatic profile. Light fining is carried out using exclusively mineral products and sterile filtration is performed when the wine is bottled.

STROPINK® has been selected in the Wine Hachette Guide 2014 and 2016;

STROPINK: The sunshine of the French Riviera, enjoy well chilled.

TASTING NOTES

The wine is bright and crystal clear, with slight salmon coloured tints that come from the Grenache grape. The texture appears supple and fat. On the nose, the wine reveals notes of red fruits, wild citrus, flower of broom, Mediterranean *garrigue*, spices and a hint of crushed mint. On the palate, the wine is lovely and creamy with a smooth, very well balanced finish. It reveals grapefruit flavours at first, followed by delicious strawberry and black current aromas.

SERVING SUGGESTIONS

Appetizers and Tapas, exotic salads, seasonal vegetables with olive oil, grilled meats with herbs. Service at 8-10 ° C.
